An aerial night view of a city, likely Singapore, featuring a prominent multi-lane highway with light trails. The city is illuminated with lights from buildings and streets. Overlaid on the image is a network of white location pins connected by thin white lines, suggesting a digital or data network. The overall color palette is dark blue and black with white highlights.

The on-demand ramp-up problem

*Creating demand
requires supply,
creating supply
requires cash...*

***Seamless multi-modality
& existing public
on-demand capacity as
springboard to smarter
mobility.***

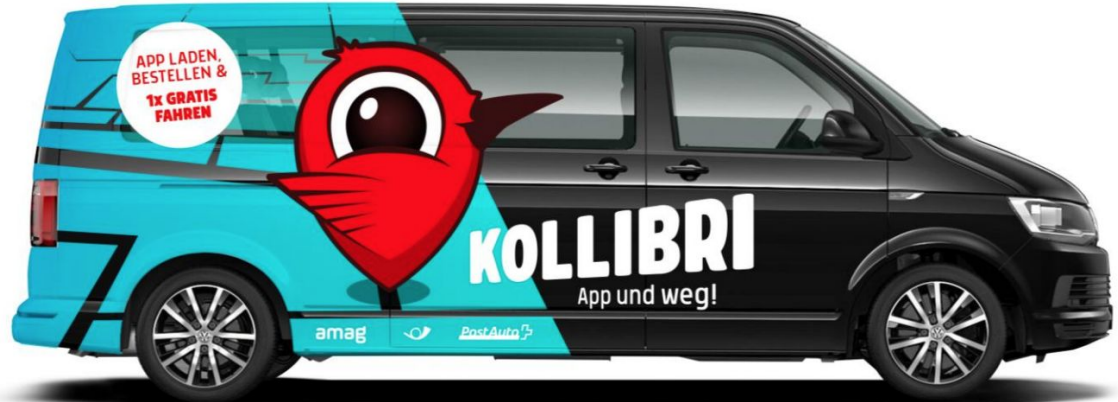

An aerial night view of a city, likely Singapore, featuring a prominent multi-lane highway with light trails. The city is illuminated with various lights, and a network of white location pins connected by thin lines is overlaid on the scene. The pins are scattered across the city, with some appearing to be on buildings and others on open areas. The overall color palette is dark blue and black, with white highlights from the lights and network lines.
